To:

Hello Everyone,

Welcome to a new academic year. The ACAPT Clinical Reasoning Curriculum and Assessment Consortia members and executive committee have been hard at work behind the scenes this summer. There is much to update you on:

**Meet the newest members of the Executive Committee of the CRCAC** In May, voting concluded on two open positions for the CRCAC executive committee. We welcome Dr. Wing Fu as Vice Chair and Dr. Jennifer Canbek as a member of the Nominating Committee. Please join us in welcoming them.

**Save the Date and Join us in Bellevue, Washington on Friday October 18 from 5 - 7pm PST** for the ACAPT CRCAC Business Meeting. This is an important meeting as we will solicit feedback on the strategic plan for the consortia! <http://www.elc.aptaeducation.org/>

**Save the Date and Hope you can Join: Clinical Reasoning Symposia II: Forging ahead!** The ACAPT CRCAC with full support from the ACAPT Board is sponsoring two two day conferences focusing on clinical reasoning. Within the 4 day event, Days 1 and 2 will emphasize the background knowledge to "Build the capacity for clinical reasoning research" whereas Days 3 and 4 will focus on "Addressing the WIGS: Wildly important goals in clinical reasoning." Stay tuned!

**Looking for suggestions** for future authors for the 2019-2020 series of "Talk to the Author" events. We are looking for authors in the area of clinical reasoning that can be a part of an interactive session to our consortia and speak about their published research. The attending consortia members are directed to read the article ahead of the conference meeting with the authors. The conference meeting then allows an interactive exchange between the authors and the attending members.

As an extension of the Journal Club, in the Spring we held our first "Talk to the Author" event featuring the publication and research of Drs. Huhn, Gilliland, Black, Wainwright, and Christensen. Go to the ACAPT CRCAC website under RESOURCES - Member Education / Professional Development for the recording of the event.

<https://acapt.org/about/our-leadership/consortium/clinical-reasoning-curriculum-assessment/member-education-professional-development>

**Check this out!** On July 30, Drs Timmerberg and Chesebro presented on [Competency-Based Education in Physical Therapy Education: An Update on Opportunities Being Considered Through the Education](#)

Leadership Partnership. You can find the recording on the ACAPT website:

**Get Involved!** Please reach out to me or anyone on the Executive Committee with questions, ideas, suggestions, OR ways to get involved. The CRCAC Task Forces (education, teaching, competencies) are hard at work and are always ready to welcome new members.

**All the best,**

**c**
