

ACAPT's National Consortium of Clinical Educators (NCCE) Strategic Plan 2022-2025

ACAPT core purpose: To lead physical therapy in the pursuit of academic excellence. [See ACAPT's strategic plan.](#)

NCCE mission: NCCE is the champion of excellence and agent of change within the clinical education community.

NCCE vision: All stakeholders in academic physical therapy champion a culture of excellence in clinical education.

Goals and Objectives

1. **Communication:** The NCCE will facilitate communication, networking, and best practice dissemination among all academic and clinical partners.
 - a. Build the foundation of a national, regional, and local network structure.
 - b. Build a directory of academic programs and clinical education sites to facilitate multi-directional communication among stakeholders.
 - c. Grow a national culture that assembles and engages leaders in clinical education to share best practice resources across all clinical education stakeholders.
2. **Growth and sustainability:** The NCCE will be the leading influencer for excellence in clinical education.
 - a. Grow and engage membership.
 - b. Grow the influence of the clinical education community voice within ACAPT.
 - c. Amass financial, human, and technological resources to support excellence and sustainability of clinical education.
3. **Research:** NCCE will be a leader in advancing a clinical education research agenda that guides data driven decisions and practice.
 - a. Promote a culture of sharing data.
 - b. Describe the data needed to drive clinical education decisions and practice.
 - c. Engage all clinical education stakeholders in the research process.
