The ACAPT Board of Directors discussed the Task Force on Payment for Clinical Experience charter. The Board recommends adding the following objective to Section III. Objectives:

Submit recommendations to the ACAPT Board of Directors based on Task Force findings

The Board also expressed concern about the ambitious timeline and questioned whether this might limit the pool of available individuals who may contribute to this work. You have the green light to move forward with the task force whether you keep the original timeline or if you revise the timeline in consideration of this concern.

The Board also requests that the task force develop some formal communication structure with Shawne Soper, who as you know, is overseeing the post-clinical education summit panel work. This is intended to ensure coordination of all of the ACAPT initiatives involving clinical education.
